

**The expert in building-physics for indoor swimming pools**

Producer of the ISO-PLUS-SYSTEM

## Indoor swimming pools - A difficult climate!

- Warm climate, permanently
- High humidity 24/7
- Risk of diffusion
- Danger of rot, corrosion and mold

The constant high humidity and warm climate is a challenge for building components!

## ISO-PLUS-SYSTEM®

Wärmedämmung + Dampfsperre + Gestaltung

Take the safe route!

## Insulation with vapor barrier – The sustainable solution for walls, roof and ceiling!

- Comfortable warm surface – all around
- Dew point becomes irrelevant due to vapor barrier
- Highly energy efficient
- No thermal bridges
- Pleasant acoustics
- Individual design and lighting
- No heating up of adjacent spaces

Get your personal and unbinding consultation for the new construction or renovation of an indoor swimming pool!

Take advantage of

**ISO-PLUS-SYSTEM®**

Wärmedämmung + Dampfsperre + Gestaltung

Proven for  
over  
40 years!

**EXCELLENT THERMAL INSULATION**  
**SUSTAINABLE MOISTURE PROTECTION**  
**PLEASANT ACOUSTICS**
